Reasons for excisions:

Not Applicable

**Summary of reasons
for classification:**

The computer moving image file entitled *Naughty America - My Sisters Hot Friend – Babysitting* is classified as:
Objectionable.

The publication is one of a number of computer moving image files that were submitted to the Office of Film and Literature Classification by the Commissioner of Police. The publication was submitted because of concerns that it might promote or support the exploitation of children or young persons for sexual purposes. The image file explicitly depicts sexual activity between a man and a young woman. The setting is contrived to present the woman as a young teenager. Her petite, youthful appearance and behaviour, such as the manner in which she speaks, collectively present her as being a young person. For those with a sexual interest in young persons the publication serves to legitimise and encourage that interest.

The Classification Office has considered the effects of the New Zealand Bill of Rights Act 1990 on the application of the classification criteria. The classification of this publication interferes with the freedom of expression, but this is an outcome that is consistent with Parliament's intention that publications falling under s3(2) of the Films, Videos, and Publications Classification Act 1993 are deemed to be objectionable. The classification is also a reasonable limitation on the freedom of expression that reflects the concern of a free and democratic society to limit the availability of publications that promote and support the exploitation of young persons for sexual purposes.
